**INSTRUCTIONS:**

This application form is two pages. Fill out the first page and as many copies of the second page as necessary, depending on how many types of products you want listed and how many manufacturing/assembly facilities you need approved.

It will speed up the process if you also submit as much technical data as possible on the products you want to be listed. Depending on the complexity of the product, this usually (but not always) includes engineering assembly drawings, bill of materials, material data sheets, component supplier and certification information, installation and use manuals, etc. If you're unsure what exactly we will need for your specific product, please contact us and ask!

Send the completed form and technical data to the TEI-LS Listing Compliance Engineer, [Listing@TEi-Test.com](mailto:Listing@TEi-Test.com). Any questions may also be directed to that email address.
